

Hydraulic Air-cooled Oil Cooler :

Air-cooled Oil Cooler/Air Oil Cooler/Hydraulic Oil Cooler/Plate-fin Heat Exchanger/Aluminum Fin Oil Cooler/Oil Cooling Fan/Hydraulic Oil Accessory

Product Application:

AL Series: applicable for draining of variable vane pump

AF Series: applicable for draining of high pressure variable piston pump/variable vane pump or independent circulation loop.

AW Series: applicable for draining of variable piston pump/variable vane pump or independent circulation loop.

AH Series: applicable for return oil cooling or independent circulation loop.

ACE Series: applicable for return oil cooling or independent circulation loop.

Product Features:

Rugged, Lightweight and Compact

High strength of Alloy Aluminum Radiator

Available in 26 sizes to accommodate flow ratings of 10 to 500L/Min

110VAC/220VAC/380VAC/12VDC/24VDC motor fans

Hydro motor/pneumatic motor/explosion-proof motor for choose

Maximum Standard Working Pressure: 2.0MPa

Applicable in hydraulic station, pump station, engineering car, machinery etc.

Customized Manufacture Available

Product Introduction:

AL, AF, AW, AH, ACE are standard and popular serious hydraulic oil cooler, suitable for hydraulic system from 0.5KW to 30KW, with fan motor of 110VAC/220VAC/380VAC/12VDC/24VDC or other motor as per users' demand; also, hydro motor/pneumatic motor/explosion-proof motor are available.
